care

FOR YOUR BABY. FOR YOU. FOR THE PLANET.

Why Bamboolik?

Bamboolik is located in the Czech Republic, the heart of Europe, as we like to call it.

We are a team of eco-friendly enthusiasts who want to do their business (and live their lives) sustainably.

How do we do that?

Sustainability is not just about the product. It is about the whole process. We take it into account in every aspect of our production. (By the way, our production takes place entirely in the Czech Republic.)

We are a local manufacturer working on reviving textile industry in the Czech Republic, in regions where it used to thrive.

We buy our materials solely in Europe.

We have been repeatedly awarded as one of the most socially responsible small companies in the Czech Republic. In 2020, we have established our own sewing factory in which we employ women – mothers of children under 4 or single mothers and women over 55 years of age who have been out of work for some time. We have become a social enterprise with this project.

BE SAVVY WITH CLOTH DIAPERS

Save:

The environment

One baby on disposable diapers produces approximately one ton of non-biodegradable waste.

Your baby's sensitive skin

Cloth diapers are much more breathable than their plastic counterparts.

Your money

Your family budget will thank you.

Just wash, dry, use and enjoy. Repeat.

POCKET DIAPER Duo

3 - 15 kg

Innovated Pocket Diaper = reusable diaper that is as easy to use as a disposable

Waterproof and absorbing layer in one diaper

Fast drying, with a detachable absorbing insert - Shaped Insert for Pocket Diaper DUO

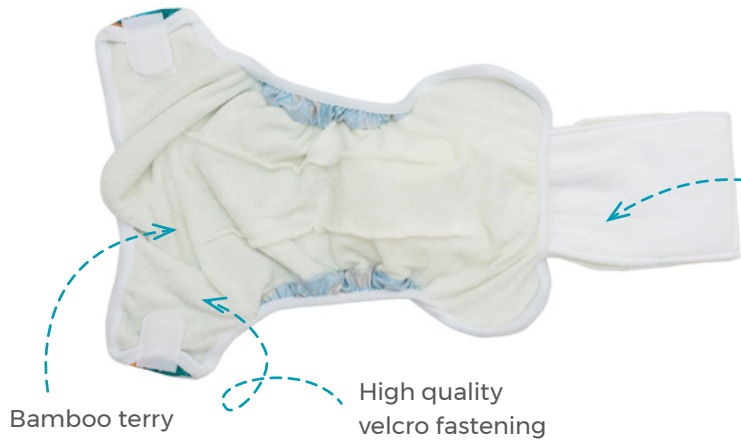

Double gussets around the legs - 100% reliable and leakproof

Two ways of usage - with bamboo terry or Stay Dry as contact layer

Absorbing Inserts can be added into the pocket

Reliable diaper also for the night

Detachable (by a snap) inner absorbing insert - Shaped Insert for Pocket Diaper DUO.

Bamboo terry

High quality velcro fastening

Stay-Dry as contact layer for making your baby feel comfortably dry even in a wet diaper

Secure the Absorbing Insert by the inner snap and put only one half of the Absorbing Insert inside the pocket

Put the other half (the one with the shaped back part) on the pocket

DIAPER SYSTEM A12 *Duo*

Unique diaper system - truly from birth to potty

Most effective and variable

Build your own diaper just the way you need it

Multiple changing options ensure the right fit throughout your baby's growth

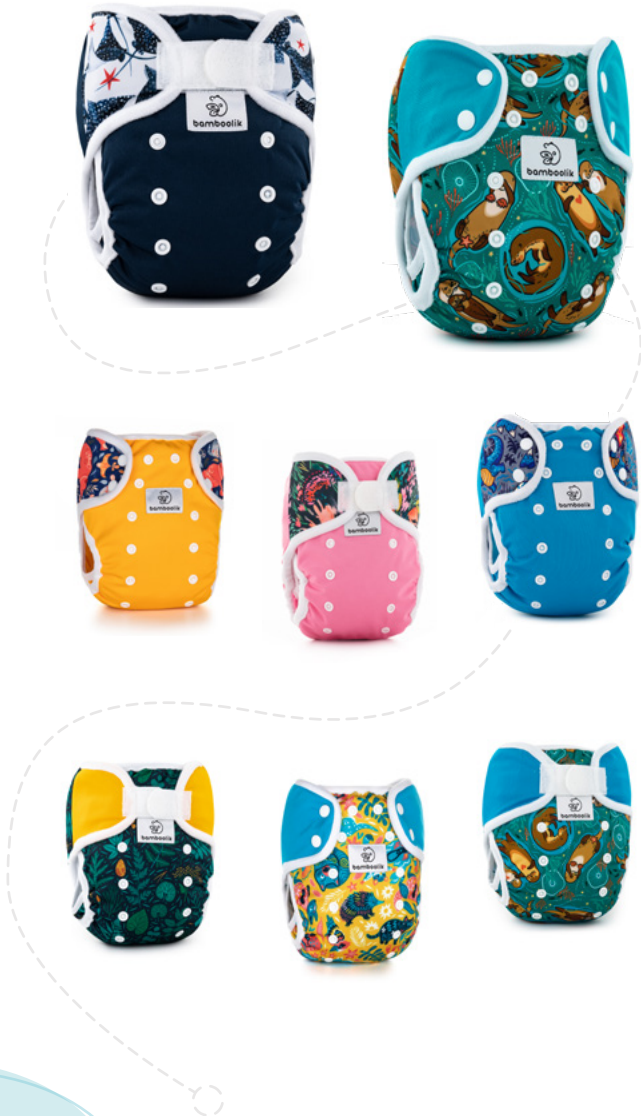

A great variety of Absorbing Inserts to choose from, in different materials and shapes. **Mix & Match** according to your needs and preferences!

Simply put together Diaper Cover + Absorbing Inserts

Two types of fastenings - velcro or snaps

DIAPER COVERS

4 - 15 kg

Essential layer for cloth diaper users. Waterproof.

Diaper Cover makes sure all liquids stay inside the diaper. To be put over absorbing inserts from our AI2 DUO System or over any other absorbing layer. Even a prefold.

WHY BAMBOOLIK'S DIAPER COVER?

Because it's:

Very waterproof & very breathable.

Membrane-like material (PUL) prevents leaks, while still letting the skin underneath breathe. We know from our own experience (and from our customers' experience) that babies in cloth suffer much less from diaper rash. Consequently, parents of such babies also suffer less.

Very reliable.

Our Diaper Cover has two elastic gussets around the legs. Why should that interest you? Because the more gussets, the more protection against leaking!

Very variable.

Size can be easily adjusted (by using snaps at the front of the Cover), fits perfectly from birth to potty.

FIND YOUR IDEAL

ABSORBING INSERT FOR AI2 DUO

DIAPER SYSTEM

1 Duo ABSORBING INSERTS

Double sided: Stay Dry side makes your baby feel comfortably dry even when their diaper is wet.

Bamboo terry on the other side is a natural fast absorbing material.

Choose contact layer according to your baby's needs.

For babies and toddlers simply put Shaped Insert into the pocket of Diaper Cover. Add a Short Absorbing Insert or a Long Absorbing Insert into the pocket of the Shaped Insert when necessary (thus adjusting the diaper's size and absorbency just like you need it).

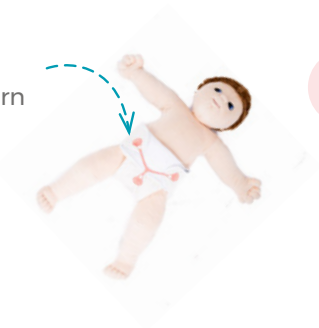

2. Organic cotton ABSORBING INSERTS

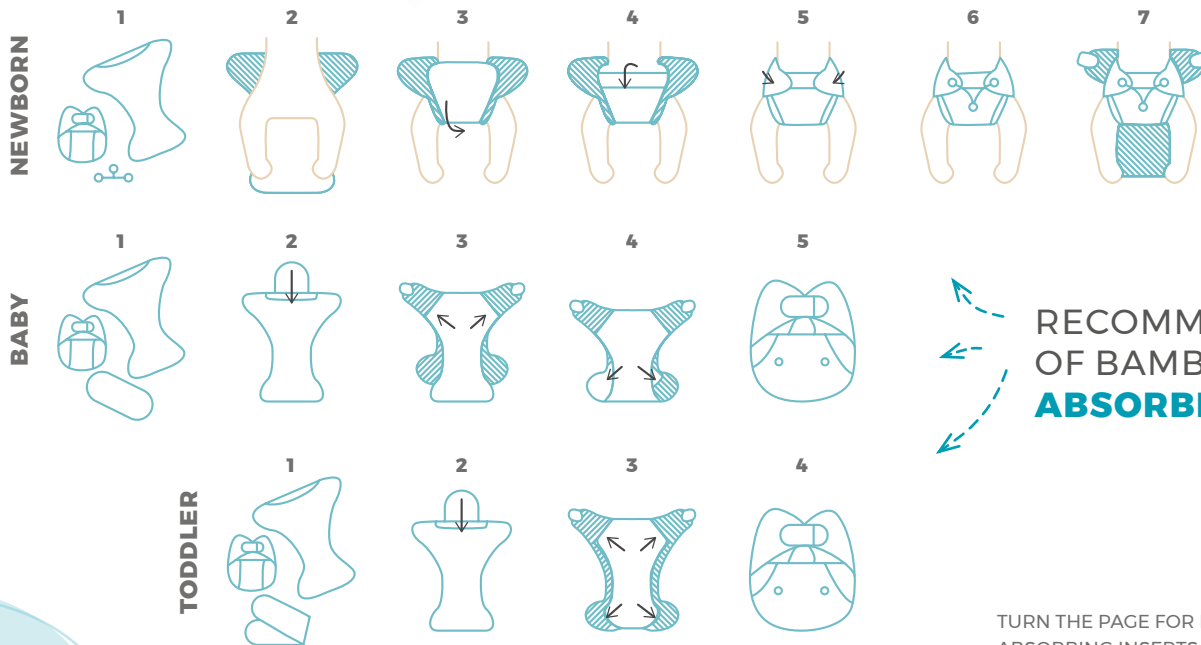

GOTS certified organic cotton of European origin.

Even more absorbing than AI2 DUO Absorbing Inserts.

Usable in a newborn fold with a Snappi fastener.

Save the environment twice with these absorbing inserts! Once by switching to reusable diapers instead of disposables and once by preferring a more sustainable material.

3. **ABSORBENT BOOSTER PREFOLD**

Organic cotton

A truly universal absorbent booster - for increasing diaper absorbency whenever necessary. Fits in cloth diapers of all shapes and types.

A simple rectangle with a tremendous absorbing capacity. Made of two layers of organic cotton.

4. **MUSLIN PREFOLD**

Organic cotton

High absorbing capacity and fast drying are possible!

Easy to fold, easy to use, easy to dry.

Compatible with any Diaper Cover, usable as a booster for extra absorbency whenever necessary.

WHAT IS GOTS?

GLOBAL ORGANIC *Textile Standard*

Highest standards for cotton growing and manufacturing.

Strictly regulated use of chemicals during manufacturing of the cotton fibre.

Respectful approach to land - alternating crops, forbidden use of herbicides, pesticides or other harmful chemicals.

Fair wages and decent working conditions for workers.

Beneficial for the soil as well as the water in the farming area.

Organic cotton

MUSLIN SQUARES

Economic and sustainable alternative of absorbing inserts for cloth diapers - Muslin Squares.

Recommended for newborns (lower absorbing capacity) or as an absorbing booster for older babies whenever necessary.

A must for every parent, not just for cloth diaper users! Great for wiping, swaddling, caressing or even for playing.

Ethically made in the Czech Republic, from GOTS certified organic cotton of European origin.

CLOTH DIAPERS AT NIGHT?

No problem!

NIGHT FITTED DIAPER

Night diaper that lasts up to 12 hours without changing (for children who already don't poop at night).

Absorbency level can be boosted up by adding another absorbing insert into the pocket.

No waterproof layer! Don't forget to put a Diaper Cover on top.

Sewn-in absorbing insert made of bamboo terry.

Stay Dry inner layer = don't let a wet diaper disturb your baby's good night's sleep.

THE BEST FRIEND OF YOUR SLEEP?

Stay Dry layer!

Liquids leak right through, none are absorbed in the fabric.

As a result, your baby feels comfortably dry all night long.

WHERE TO FIND STAY DRY LAYER?

(apart from night fitted diaper)

Stay Dry Separation Liner (washable)

- Put on top of any diaper/absorbing insert

Pocket Diaper DUO

- Integrated Stay Dry layer
- For older babies and toddlers, you might want to add an extra absorbing insert for the night

AI2 DUO Diaper System

- Stay Dry layer on one side of every DUO Absorbing Insert
- For the night add an extra absorbing insert(s) in the pocket of the Shaped Insert

SWIM DIAPERS

3 SIZES OF SWIM DIAPERS *for little swimmers*

Adjustable waist

Keep solid "accidents" safely inside

Adjustable around the legs

Can be pulled down as regular swimwear. Or you can unsnap them at the waist and take them off between the legs without having to pull them all the way down to the ankles.

Washable, in cute and colourful designs

TRAINING PANTS

pull-up

The most universal Training Pants: use any absorbing insert you already have at home. It will fit perfectly.

Can be combined with Bamboolik's A12 DUO Absorbing Inserts (use the bamboo side as contact layer). Or use with just any absorbing insert you have at your disposition.

Elastic waist. Sizes can be adjusted exactly to your baby's proportions by snaps on the sides (three rows).

Unique system of potty training pants with an absorbing insert: you need just 2-3 pairs of Training Pants as only the insert needs to be changed after every use.

Can be pulled down and up as regular underwear (convenient for potty training). However, in case of an accident, just unsnap the pants and take them off as regular diaper. No need to pull them down to the ankles.

NEWBORN LINE

MiniMimi

2-6 kg

MINIMIMI FITTED DIAPER + MINIMIMI DIAPER COVER

Perfect fit from 2 kg.

Double protection: elastic gussets around the legs and in the back at both the MiniMimi Fitted Diaper and MiniMimi Diaper Cover.

MiniMimi Fitted Diaper can be used either on its own or with a Short Insert (from A12 DUO Diaper System).

A great (and economic) option for a newborn: use a Muslin Square as absorbing layer! With MiniMimi Diaper Cover as waterproof layer.
